Property Tax Journal Index
Volume 8, 1989

Author Index

Ballinger, Phil. Derivation and use of a variable discount rate model for the appraisal of oil and gas properties. September: 193–209.

Brascoupe, Simon. Sharing: Cultural differences in revenue and wealth in relation to Indian peoples and the land. December: 255–61.

Case, Bradford, and John M. Quigley. Statistical analysis of sales data to verify appraisal information. March: 15–25.

Clapp, John M. Sample size in ratio studies: How can "small" be made "large enough"? September: 211–31.

Coffman, James F. Alternatives in property tax system design. December: 235–48.

Cornia, Gary C., see Wheeler.

de Silva, Harindra, see Gruenstein.

Downing, Roger H., see Twark.

Eichenbaum, Jack. Incorporating location into computer-assisted valuation. June: 151–69.

Eyerly, Raymond W., see Twark.

Fisher, Glenn W. Property taxation and local government: Four hypotheses. June: 113–28.

Frank, Andrew U. The geographic information system and its use for valuation. March: 85–98.

Friedley, Dale. Commonalty in data stores and functions of geographic information systems and automated appraisal and assessment systems. March: 99–110

Fruitman, Cecilia M., and Robert J. Gloudemans. A feasibility study of CAMA for apartment and commercial property. March: 55–69.

Gandhi, Devinder, and Abdul Rahman. An econometric model of industrial land valuation. June: 139–49.

Gilley, Otis W., see Pace.

Gloudemans, Robert J., See Fruitman.

Gruenstein, John M. L., and Harindra de Silva. Hedonic index estimation for commercial buildings: Assessors and economists and the parallel search for the optimal functional form. March: 71–83.

Jaffe, Austin J., and Stellan Lundström. Life cycle and portfolio approaches for the estimation of land values: Theory and a Swedish case study. June: 129–38.

Lundström, Stellan, see Jaffe.

Malme, Jane H. Massachusetts home rule. December: 249–54.

O'Connor, Patrick M. Computer-assisted mortgage review assurance. March: 3–14.

Pace, R. Kelley, and Otis W. Gilley. Appraisal across jurisdictions using Bayesian estimation with bootstrapped priors for secondary mortgage market applications. March: 27–42.
Quigley, John M., see Case.
Rahman, Abdul, see Gandhi.
Twark, Richard D., Raymond W. Eyerly, and Roger H. Downing. Some insights into understanding assessment uniformity measures: Regressivity and progressivity. September: 183–91.
Ward, Richard D. Apartment valuation model development. March: 43–53.
Wheeler, Gloria E., and Gary C. Cornia. An analysis of a self-reporting tangible business personal property process. September: 171–82.
Youngman, Joan M. Legal aspects of United States property taxation: The federal role in local taxation. December: 263–75.

Subject Index

Assessment Administration—Massachusetts

Malme, Jane H. Massachusetts home rule. December: 249–54.

Assessment Performance Measures

Twark, Richard D., Raymond W. Eyerly, and Roger H. Downing. Some insights into understanding assessment uniformity measures: Regressivity and progressivity. September: 183–91.

Assessment Ratio Studies

Clapp, John M. Sample size in ratio studies: How can "small" be made "large enough"? September: 211–31.
Twark, Richard D., Raymond W. Eyerly, and Roger H. Downing. Some insights into understanding assessment uniformity measures: Regressivity and progressivity. September: 183–91.

Business Personal Property Audit

Wheeler, Gloria E., and Gary C. Cornia. An analysis of a self-reporting tangible business personal property process. September: 171–82.

Coefficient of Dispersion (COD)

Gruenstein, John M. L., and Harindra de Silva. Hedonic index estimation for commercial buildings: Assessors and economists and the parallel search for the optimal functional form. March: 71–83.

Commercial Property—Sweden

Jaffe, Austin J., and Stellan Lundström. Life cycle and portfolio approaches for the estimation of land values: Theory and a Swedish case study. June: 129–38.

Data Collection

Wheeler, Gloria E., and Gary C. Cornia. An analysis of a self-reporting tangible business personal property process. September: 171–82.

Discounted Cash Flow Analysis

Ballinger, Phil. Derivation and use of a variable discount rate model for the appraisal of oil and gas properties. September: 193–209.

Gas Properties

Ballinger, Phil. Derivation and use of a variable discount rate model for the appraisal of oil and gas properties. September: 193–209.

Geographic Information Systems (GIS)

Frank, Andrew U. The geographic information system and its use for valuation. March: 85–98.

Friedley, Dale. Commonalty in data stores and functions of geographic information systems and automated appraisal and assessment system. March: 99–110

Income Properties

Fruitman, Cecilia M., and Robert J. Gloudemans. A feasibility study of CAMA for apartment and commercial property. March: 55–69.

Gruenstein, John M. L., and Harindra de Silva. Hedonic index estimation for commercial buildings: Assessors and economists and the parallel search for the optimal functional form. March: 71–83.

Ward, Richard D. Apartment valuation model development. March: 43–53.

Indian Reservations

Brascoupe, Simon. Sharing: Cultural differences in revenue and wealth in relation to Indian peoples and the land. December: 255–61.

Land

Brascoupe, Simon. Sharing: Cultural differences in revenue and wealth in relation to Indian peoples and the land. December: 255–61.

Land, Urban

Gandhi, Devinder, and Abdul Rahman. An econometric model of industrial land valuation. June: 139–49.

Legal Issues

Youngman, Joan M. Legal aspects of United States property taxation: The federal role in local taxation. December: 263–75.

Location Analysis

Eichenbaum, Jack. Incorporating location into computer-assisted valuation. June: 151–69.

Mass Appraisal, Computer-Assisted

Fruitman, Cecilia M., and Robert J. Gloudemans. A feasibility study of CAMA for apartment and commercial property. March: 55–69.

Pace, R. Kelley, and Otis W. Gilley. Appraisal across jurisdictions using Bayesian estimation with bootstrapped priors for secondary mortgage market applications. March: 27–42.

Ward, Richard D. Apartment valuation model development. March: 43–53.

Mortgage Market

O'Connor, Patrick M. Computer-assisted mortgage review assurance. March: 3–14.

Pace, R. Kelley, and Otis W. Gilley. Appraisal across jurisdictions using Bayesian estimation with bootstrapped priors for secondary mortgage market applications. March: 27–42.

Multiple Regression Analysis (MRA)

Gruenstein, John M. L., and Harindra de Silva. Hedonic index estimation for commercial buildings: Assessors and economists and the parallel search for the optimal functional form. March: 71–83.

Oil Properties

Ballinger, Phil. Derivation and use of a variable discount rate model for the appraisal of oil and gas properties. September: 193–209.

Personal Property

Wheeler, Gloria E., and Gary C. Cornia. An analysis of a self-reporting tangible business personal property process. September: 171–82.

Property Tax Administration

Coffman, James F. Alternatives in property tax system design. December: 235–48.

Property Tax, History of

Fisher, Glenn W. Property taxation and local government: Four hypotheses. June: 113–28.

Sales Data

Case, Bradford, and John M. Quigley. Statistical analysis of sales data to verify appraisal information. March: 15–25.

Clapp, John M. Sample size in ratio studies: How can "small" be made "large enough"? September: 211–31.

Statistical Techniques

Clapp, John M. Sample size in ratio studies: How can "small" be made "large enough"? September: 211–31.

Twark, Richard D., Raymond W. Eyerly, and Roger H. Downing. Some insights into understanding assessment uniformity measures: Regressivity and progressivity. September: 183–91.

Wheeler, Gloria E., and Gary C. Cornia. An analysis of a self-reporting tangible business personal property process. September: 171–82.

Valuation

Gandhi, Devinder, and Abdul Rahman. An econometric model of industrial land valuation. June: 139–49.

Jaffe, Austin J., and Stellan Lundström. Life cycle and portfolio approaches for the estimation of land values: Theory and a Swedish case study. June: 129–38.

Valuation, Computer-Assisted

Ballinger, Phil. Derivation and use of a variable discount rate model for the appraisal of oil and gas properties. September: 193–209.

Case, Bradford, and John M. Quigley. Statistical analysis of sales data to verify appraisal information. March: 15–25.

Eichenbaum, Jack. Incorporating location into computer-assisted valuation. June: 151–69.

Friedley, Dale. Commonalty in data stores and functions of geographic information systems and automated appraisal and assessment systems. March: 99–110

O'Connor, Patrick M. Computer-assisted mortgage review assurance. March: 3–14.
